Leonardo Silva Vieira de Mello

Senior Software Engineer · São Paulo, Brazil
lsvmello@gmail.com · linkedin.com/in/lsvmello · github.com/lsvmello

SUMMARY

Senior software engineer with 15 years of experience building and modernizing business-critical platforms in banking and retail planning. Experienced across Java/Spring Boot and .NET services, event-driven integrations, and Databricks/Power BI analytics, with a track record in system modernization, cloud migration, CI/CD and micro-frontends.

EXPERIENCE

Avenue Code: Senior Software Engineer

July 2022 – Present · São Paulo, Brazil

Consultant on the merchandise planning and re-forecasting platform of a major North American apparel retailer, used daily by hundreds of planners. Cross-stack scope: planning services, calculation engine, integrations, analytics and engineering automation.

- Designed, built and published a Power BI planning report on Databricks: source-to-target mapping, dimensional model, SQL, and Python tooling that generates and validates the report project (PBIP/TMDL).
- Extended Java 21 / Spring Boot 3 planning microservices: REST APIs on MongoDB and SQL Server, and a Kafka/RabbitMQ event-ingestion gateway.
- Supported the .NET buy-plan projection engine (demand, inventory, receipts), its ASP.NET Web API, and the Excel add-in (VSTO/WPF) planners use daily.
- Maintained a weekly vendor-managed-inventory integration and its portal (Java, Spring Boot, React/TypeScript), plus an Office.js Excel add-in.
- Maintained PySpark planning simulation pipelines on Databricks and Delta Lake.

Itaú Unibanco

October 2011 – July 2022 · São Paulo, Brazil

Senior Software Engineer · June 2018 – July 2022

- Designed and developed micro-frontend applications with Angular on AWS.
- Automated the migration of legacy applications so they work in modern browsers.

Software Engineer · August 2015 – May 2018

- Led the migration of on-premises applications to a private cloud infrastructure.
- Administered the largest Microsoft SharePoint 2010 farm in Latin America.

Junior Systems Analyst · October 2011 – July 2015

- Developed web applications with Classic ASP, ASP.NET and SharePoint 2010.
- Integrated SharePoint 2010 with Oracle PeopleSoft using the WSRP protocol.

Earlier: Junior Systems Analyst at Brito's System · July – September 2011

SKILLS

- **Languages:** Java, C#, Python, TypeScript, JavaScript, SQL
- **Backend:** Spring Boot, ASP.NET Web API, Flask
- **Messaging & data:** Kafka, Avro, RabbitMQ, MongoDB, SQL Server, Databricks, PySpark, Delta Lake, Power BI
- **Frontend:** React, Angular, Material UI, Office.js / Excel add-ins
- **Cloud & DevOps:** Azure (AKS, Blob Storage, Key Vault, Data Factory), AWS, Docker, GitHub Actions, Jenkins, SonarQube, Apigee, New Relic, Splunk
- **Testing:** JUnit, NUnit, SpecFlow, Cypress
- **AI-assisted development:** Claude Code, GitHub Copilot, Codex

EDUCATION

Technological Degree (Tecnólogo) in Information Technology · 2008 – 2011
Instituto Federal de Educação, Ciência e Tecnologia de São Paulo (IFSP)

LANGUAGES

Portuguese (native) · English (full professional) · Spanish (professional working)
